

# **Glasgow Example Script**

## **Larger CU, campus-based Uni**

Starting Uni. What's it actually like?

We love Glasgow - from coffee shops, pubs and charity shops across the West End, to the friendliest locals you could imagine, to our instagrammable campus where there's loads going on - and we cannot wait to welcome you here.

But what's it actually like?

Because online open days and online groups can only tell you so much.

**We know that**  
**meeting people**  
**making memories**  
**growing as a person**

**Will be the things that make your university experience.**

**And as Christian Union, that's what we're all about. We're about:**

**Community that really cares about each other**  
**Space to explore big questions**  
**Giving people a chance to share what *they* believe**  
**Encouraging one another from the Bible**  
**Small groups that *really* have an impact!**

All as a diverse community of students.

And whether it's through our small impact groups, our main central gatherings, or the events we'll be running on campus, we'd love you to come join in.

Glasgow is calling.

**Follow us on social media.**  
**Connect with the link in our bio.**  
**We can't wait to meet you!**
