

# London Example Script

## Smaller CUs, city-based Unis

What's going to London for uni *really* like?

It's... *big*.

Open days and tourist guides can only say so much.

And so much is said. It's London.

But besides the busses and the baristas and the books and the busyness...

It's the people you meet, the memories you make and the person you become.

We're here for the bits of uni that matter.
